## HILLARY CLINTON'S PRESIDENCY SUPPORTS IMMIGRATION REFORM

### Clinton's Promises on Immigration Reform

Hillary Clinton, the President that the United States needs, foresees the minority becoming the majority. Embracing the presence of the minority in the U.S. is very critical because they are the main contributors to the country's economy. Without them, the U.S. will not feature among the developed nations around the globe. Clinton believes we need inclusive immigration reform to full and equal citizenship.

"If we claim we are for family, then we have to pull together and resolve the outstanding issues around our broken immigration system. The American people support comprehensive immigration reform not just because it's the right thing to do—and it is—but because they know it strengthens families, strengthens our economy, and strengthens our country. ... We can't wait any longer for a path to full and equal citizenship," said Clinton.

Clinton will help eligible persons become naturalized. In the debate tonight, Clinton will address and emphasize these elements of her Immigration Reform:

- Explain how she will introduce comprehensive immigration reform
- Expound on her vision for immigration reform, addressing immigrants living in the US today and those who intend to come in the future
- Address the family visa backlog issue to keep families together
- Define how she will use the President's authority to protect people from labor abuses
- Discuss how her administration will end family detention, private detention facilities, and raids on immigrants

Implementation of all these reforms will benefit the people of the US and ultimately the country.
